Take a look

The tranquility of nature can be felt throughout the hotel and SPA areas. The interior features natural elements such as brass, wood, stone, and leather, while the greenery is recognized by the international Green Key award.

After renovations in 2021–2022, the hotel's international rating increased from 4 to 4+ stars.

Experience true mastery

Have you ever experienced a massage tailored just for you? Our masters perform an improvisational JAZZ massage, uniquely adapted each time to your mood, desires, and body's needs.

On days when you're not in the mood for jazz, you can choose from 62 different massages and 140 spa treatments.

Listen to thoughts

Often, we learn to focus so intensely that we no longer notice the distractions around us. At the SPA, you'll want to awaken your sense of hearing. Here, nature's symphony flows in through the windows, while in the shared spaces, music designed according to the natural human biorhythms surrounds you: in the morning, it energizes and helps you wake up; during the day, it uplifts your mood and maintains your vitality; and in the evening, it soothes and relaxes.

Taste life

The seasons and Lithuanian traditions melt in your mouth – that's how the experiences at LABAI restaurant in Druskininkai can be described. The menu is guided by the seasonal harvest from local farms, fruits and vegetables grown by the staff in their own gardens, and even mushrooms discovered by the guests themselves in the forest.

Breathe in nature

A visit with us can feel like a sip of fresh air, as the invigorating breeze streaming through the windows is almost intoxicating!

The scent that welcomes our guests – a fragrance created in Grasse, France, the world's perfume capital – accompanies your luxurious stay, relaxing you, sparking curiosity, and creating lasting memories.

What Makes SPA VILNIUS Unique:

- Many years of SPA experience and signature treatments
- Personalized attention for each guest
- An excellent place to relax with family
- Healthy, organic cuisine made using products from local farms
- A unique combination of SPA, wellness, and beauty services
- Treatments use internationally recognized brands such as QMS Medicosmetics, Menard, Forlle'd, ESPA, and Cholley®
- A blend of unique wellness traditions and a modern, guest-focused approach

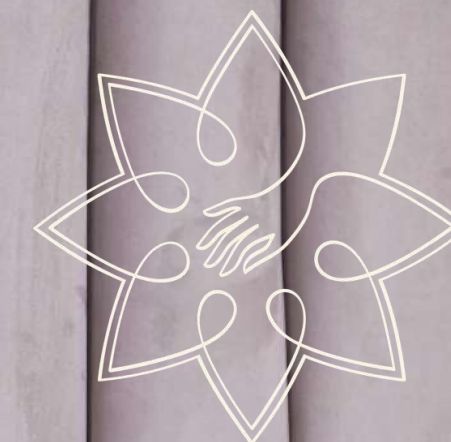

Why SPA VILNIUS?

- 51% of our guests stated that their stay "exceeded their expectations."
- Approximately 60% of bookings are repeat reservations.
- More than 19% of guests return more than three times.
- 2024 European SPA Association Awards – recognized as the Most Innovative SPA Hotel in Europe.
- 2023 World Luxury SPA Awards – won in the Eastern Europe category as the Best Luxury Hideaway SPA.
